Subject: validation reports

Dear Klaus, Georg, and Regina—

Would you please provide copies of the INBIFO validation reports for the nicotine and metabolites analyses, the nicotine in butts analysis, the 3- and 4-aminobiphenyl analysis, and the NNK metabolites analysis for our review? Jan has agreed to work with me on this review, so he will help translate if these reports are only available in German. Thank you in advance!

Best regards,
Robin
